Psychological warfare in politics. - Neo-Conservatism's failed attempts to sabotage humanism.

> “But as you have already had recourse to arms, and have committed much havoc, it appears to me the point you have now consider is, not how shall we desist from this destruction, but how we shall commit more in order to secure ourselves... It is necessary to commit new offences by multiplying the plundering and burnings and redoubling the disturbances because, were small faults are chastised, great crimes are rewarded.” -PRINCE- MACHIAVELLI. cited in :

Glossary of important concepts

The main way capitalism tries to compete against Communism is to try to psychologically DAMAGE their opponents. This gives the capitalists the opportunity to claim to be MORE moral, MORE humanistic than their opponents because their opponents are REGARDED AS ill or sick.

For some time communists have been held back, humiliated and isolated because they are regarded as being a bunch of perverts, ILL AND SICK.

Here are a few examples of how the right have used psychology to try and condition this ILLNESS INTO THEIR OPPONENTS:

You will see in England teenagers sucking dummies, teenagers being targeted by retailers to wear g-strings (now stopped due to public demand), you will see graffiti of women sucking teddy-bears limbs.
You will see scenes when looking at adult porn (that are sprung on you- POP UPS, SUDDEN EDITING TO UNWANTED CLIPS) of porn-stars getting it on in kids playgrounds, you will see porn-stars acting and dressing like little girls (MAX HARDCORE PORN) In the MASS MEDIA they will dress Britney Spears & Carol Vorderman up like little girls so they can say you fancy little

American Buddhists will tell you “sex is like food”, American old men call their girlfriends chicken legz, Thai bar girls call themselves coffee, Colombian pimps introduce themselves as Ronald Mcdonald, and Thai whores try to get you turned on with hamburgers.

Then there is the MORE subtle attempts at attacking the morality of their opponents.

The right will then TRY TO GAIN POLITICAL CAPITAL FROM THESE ATTACKS BY BLAMING THIS social pathology ON secularism, ON COMMUNISM. What you have to realise is that the above examples have been attempts by the right to attack the morality of their opponents; to change their psychology - to cause a "split" in their psychology- IT IS AN ATTEMPT AT PSYCHOLOGICAL WARFARE BY THE RIGHT. AN ATTEMPT TO SABOTAGE HUMANISM.

The rights use of irony
is mainly used to appear MORE moral than their opponents. TO TRY AND BRING OUT THE MORAL INFERIORITY OF THEIR ENEMY. (it also has other uses to be discussed). When you realise that this irony stems from their attempts to attack the psychology of their opponents you will agree that this irony is false. When you argue that this irony is false / when you present facts such as the above examples the right will say things like " **CALL A SPADE A SPADE**" in order to argue objects have ONLY one meaning. To deceive you into accepting only the literal meaning so as to deny the symbolic meaning they have created. This is done in order to hide their attempts to create double meanings, to condition objects and children WITH NEW MEANINGS.. THEY DEMAND LITERALISM BECAUSE THAT OVERLOOKS THE SYMBOLIC NATURE OF THESE ATTACKS. THE SYMBOLIC MEANING IS PRODUCED IN THESE ATTACKS NOT THROUGH AGREEMENT BUT THROUGH **ENFORCEMENT** . Consider the teddy-bears limb, is that just a limb or has that graffiti changed it's meaning- PHALLIC SYMBOL. A double meaning has been created but they will argue that it is your interpretation AND TO TAKE THINGS LITERALLY.
They will argue that the facts have been distorted but as you can see from the above examples that would be an attempt to introduce an element/ LAYER of distortion that would not be recognised by anybody other than the sadist who wishes to obfuscate the facts. AS YOU CAN SEE, THIS Irony is fake and those who have been informed of the above examples CAN ONLY REGARD THESE ATTACKS AS ATTEMPTS TO SABOTAGE THE HEALTH OF THEIR ENEMY- IT IS AN ACT OF **POISONING**. A SOCIAL PATHOLOGY INTRODUCED BY THE SADIST TO SAVE THEMSELVES FROM COMMUNISTS.

In response to "It's a conspiracy"

At least two people have seen teenagers sucking dummies. "It's a conspiracy" video-footage of pornstars in children's' playgrounds, Carol Vorderman dressed up like a little girl ...etc., etc.

No. The ABOVE EXAMPLES ARE UNMISTAKEABLE AND CONFIRMED FACTS. THE right have been caught being sadists and this is why sadism has failed and the poison they use. THE POISON HAS LOST

What you have to realise is this has been nothing less than an orchestrated, deliberate and systematic attempt to sexulaise little children so they can say you fancy little children. A SOCIAL PATHOLOGY introduced by the right to poison the minds of their enemy.

LOOKING BACK I would dearly like to interview the dummy sucker, her teddy, and her Asian , middle eastern appearance, FRIEND. I would ask them: DO YOU THINK YOU CAN PUSH HUMANITY BACK. **LOOK AT WHAT HAPPENS, YOU JUST MAKE YOUR SYSTEM EVEN MORE HATED , YOUR DESPERATION TO SAVE YOURSELVES EVEN MORE APPARENT AND YOU FURTHER INCRIMINATE YOURSELVES.**

THESE FACTS PUT AN END TO THE DEBATE OF WHO IS TO BLAME AND SUBJECTIVISM HAS BEEN SHOWN TO BE A REFUGE WHERE SADISTS GO TO LIE/DIE IN THE HOPE THEY CAN DECEIVE AND TRICK. THEY TRY TO BLAME THE READER OF THE SIGNS, BUT HERE THE SIGNS ARE CLEAR BEYOND ANY DOUBT.

Attacking but not seen to be attacking:

Neoconservatives DEMAND facts. WHY? They either think that cannot be found or that they have learnt to EVADE by being SUBTLE, but they have failed. The above examples are facts AND CAN BE CONFIRMED which puts an end to the debate but lets consider a MORE subtle attempt at attacking their opponents and their attempts to cover their tracks; to dodge from facts.

I have seen AND READ the words little and tiny conditioned. After an attack upon the psychology of their opponents there will be debates and discussions about these opponents. Laughter and irony / even a wry smile play their second part- to transform meanings. This laughter/humiliation is intended to bring out and carry over the new meanings to these words, sign language etc. In this way, words act like variables with meanings being loaded [to attack] and unloaded [chaff]) As chaff neoconservatives try and use those words in varying SENSES to deny that they have used them in a derogatory sense.

Let me demonstrate exactly how words are conditioned.
Here is some **anti-sadistic** poetry:

The **MORE** you consume the **MORE** the lower classes are poisoned.

You see this poetry now has a double meaning/ two senses. It was originally used repeatedly to resist the industrial scale poisoning of the English working class (with some success :"pollution undermines public health" -G.W.BU$H) and then was loaded with a second meaning - the resistance to the sucking of a teddy-bears limb which is designed to psychologically poison the left. These and many **MORE** poetical techniques are used by the right to attack the left. Poetry as it offers some degree of camouflage until you discover the techniques; They believe that this method offers the most difficulties in pursuing traitors, agents and saboteurs that are rife within the left particularly in so called “left wing media.” Have you heard of iambs,trochees and alliteration - V.MAYAKOVSKY had and he snubbed them.

So their sadistic poetry has been identified and the techniques will be **MORE** fully described and their agents brought to justice. This I know will be a devastating BLOW to neoconservatism- pun intended. Of

A teddy-bears limb has been SEXUALISED.- The use of the limb as it is resembles the SHAPE of a penis ie. [HAS A **DEGREE** OF SIMILE]. This limb becomes a strong PHALLIC SYMBOL through the use of A **STRONG** /**OBVIOUS** SEXUALISATION . We also see weak similes and weak sexualisation. - To be #discussed

The above image is a prime example of an object being conditioned. Neocons try to fool us into thinking objects have one meaning and only one meaning - ("call a spade a spade" Gary Kasprov – they demand LITERALISM because their attacks are from symbolism-)

I am an artist and I can make an object have a thousand meanings. I can make objects change their meaning in an instance and then back again. Of course I could deny that but that is a LIE.

It apparently isn't enough to read these signs AS THEY ARE INTENDED it has to be proved scientifically (see this example). I have performed experiments in dodging SCIENCE'S attempts to establish facts and it is very simple to achieve. I CAN ATTACK AND NOT BE SEEN TO BE ATTACKING. I KNOW THE TRICKS OF THE TRADE. I KNOW HOW TO DODGE THE FACTS.I UNDERSTAND THE POWER OF AESTHETICS.

AS AN ARTIST I CAN DEMONSTARTE AN ATTACK AND SCIENCE CAN'T ALWAYS EASILY DETERMINE IF AN ATTACK HAS TAKEN PLACE.

WHY CANT SCIENCE DETERMINE IF AN ATTACK HAS TAKEN PLACE??

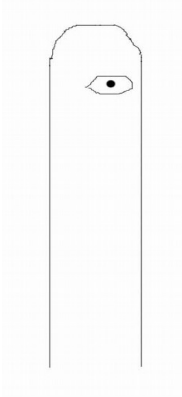
AN ATTACK by the right (sexualisation of children, CHILDRENS paraphanalia etc) is about finding ways to condition that does not immediately arouse too much suspicion (see teddybear limb sucking AS BEING OBVIOUS) and if scrutinised by science offers the opportunity to claim "subjectivism". That can be mostly achieved through UNEXPECTED (entrapment, unexpected source, unexpected conditioning...) and SUBTLE / DEGREES of conditioning.

FOR EXAMPE:
The use of a strong simile and strong sexualisation. -- TEDDYBEAR LIMB SUCKING AROUSES SUSPICION, SO THE USE OF SUBTLE ATTACKS:

The use of a weak simile and strong sexualisation.

A strong simile and a weak sexualisation. -- In the case of creating a phallic symbol the eating of a banana and weak sexually suggestive lip licking If your not sure on this, check out the famous flake advert and study it.

BY BEING A DEGREE unclear I COULD DENY THE IDENITY OF THIS PERSON. So we must say to ourselves, when are we clear enough. If the concept of clarity always provides room for more clarity you have say to yourself: **I am clear enough. THIS IS LINCON**. But the right are aware that this thinking is dangerous it makes you react quickly so they try to humiliate this unclear ground to make it unbearable to make you feel ignorant and stupid . But it is more stupid to carry on the path of trying to find ever more clarity which is an endless and makes you inactive.



AND HERE IT COULD BE DENIED THAT THIS IS A PHALIC SYMBOL. USED IN A WESTERN UNION AD . USED TO CONDITION THE ROUND (TO BE DISCUSSED). THE OBJECT BEING CONDITIONED WOULD ALSO BE UNCLEAR OR BE ABSTRACTED IN ORDER TO SAFE GUARD THEIR ATTEMPTS.

THOSE WHO WISH FOR COMPROMISE, HAVE A UNION OR CONTINUE ON A CAPITALIST PATH SHOULD BE KILLED.

SCIENCE NEEDS TO BE ABLE TO PROVE THE WEAK ASPECT. But I am not going to wait for scientists. On health grounds I need to respond quicker than they can
provide scientific proof. That in this situation makes perfect sense. I HAVE PERFORMED TESTS TO CONFIRM THAT THE ABOVE SYMBOL BY WESTERN UNION IS READ BY OTHERS TO ALSO MEAN A PHALLIC SYMBOL. THE TEST Conforms THAT THEY ALSO READ THIS AS A PHALLIC SYMBOL. I*T ACTUALLY DOESNT EVEN REQUIRE THE EYE BUT TO PUSH ITS MEANING (make the meaning stronger) IN THAT DIRECTION THEY USED IT. SO WE CAN RESPOND FAR FAR QUICKER THAN*

Scientists should speak/listen/watch ADVERTISERS, they are QUITE LITARALLY SLAUGHTERING YOU:

OTHER REASONS SCIENCE FAILS TO DETERMINE AN ATTACK:

Changing the form of the irritant in order to be received by new host:
you condition object (A) then use that object to condition object (B) then b is used to condition object (C).
a benefit of this is :
(A)changes it's form to (B) as (A) when used on (C) would be too obvious/ OUT OF PLACE
(A) finger pointing - conditioned to be phallic (B) full open hand (C) placed on a child / baby, or a simile of a baby,simile SHAPES , paraphernalia,etc., etc.

We see irony and key words used with finger pointing, then finger pointing and laughter is used at the same time as the open hand. This results in moving the phallic (conditioned to represent sexual pathology) to the full open hand. I suggest you look at Western Union adds that were displayed in Italy which demonstrate this 27-Jan-07.

THESE METHODS ALSO CONTRIBUTE TO MOVING THE IRRITANT:

Having pornstars suck their finger would sexualise the finger / make it phallic-Peter North film
Having comedians use thumbs up in ironic manner-Borat

Full open hand with teddybears ontop of each finger - carrying the sexualised elements to the open hand and sexualising teddybears.-Polish advert

Physically showing one finger then immediately the fully open hand or at the same time-Prince Charles basketball scene- BBC News 24 29-01-07; American Entertainment award's comedian Oct-07; NS&I Hotmail add April 10th -07 -very important example, etc, etc.

SO THATS HOW THEY MOVE THE IRRATANT / CONDITION THE FULL OPEN HAND

THEN they have their poets talk about "the hand of kindness" and what the hand does in order TO FURTHER CONDITION.

THE CONDITIONED OPEN HAND THEN GETS POSITIONED:

It is worth bearing in mind that the act of moving the irritant is sometimes done in UNEPECTEDED ways by those you would not suspect of trying to move the irritant. This complicates the tracking of the source of the attacks. A stronger degree of conditioning takes place because it is a targeted attack. With suspicions allayed a MORE determined attack happens.

For example:

Where do they want to place/position their hands? What do they want to condition next? . An English rugby player playing with a giant ball under his t-shirt; there is also a similar example on TV of a guy doing the same thing with a silver ball except he laughs a bit MORE (these people also act as role models); an open hand placed in a child's shoe in a shop window Belgium Diksmudie—17--Feb--07 [N51.03169 E2.86319]; a Moscowtimes banner add showing hands placed into a round shape. 26-02-07; NS&I Hotmail add April 10th 07- very important example ; orbital jugglers in a Hotmail add 10-June-07; How about an npower Hotmail add February 24th 07; BBC.CO.UK “tune into the big one” - pic 15-April-07; how about Tom Waits pic on wikipedia and html in 24hrs 2006, Lets examine a Unicef poster in Venezuela WITH SEVERAL HANDS PLACED ON A BULGING STOMACH? --13--June--07 near Museo de arte Contemporane; Admiral Lavigne music video: pregnant women holding stomach --20--July--07,etc., etc.

SO THAT IS HOW AND WHERE THEY MOVE THE IRRATANT FROM THE CONDITIONED FULL OPEN HAND

YOU WILL FIND THAT THEY WANT TO TAKE THE CONDITIONED OPEN HAND:- FIRST TO THE ROUND SHAPE (see ball example), A SIMILE OF A PREGNANT STOMACH, THEN ONTO THE PREGNANT STOMACH: TO SEXUALISE MATERNITY.

the **reader/user has been very carefully considered, targeted, and conditioned to receive an intended meaning**. My experiment on positioning a teddybears limb shows how to condition and use the above subjectivist concepts to deny that I have deliberately positioned and conditioned objects. I JUST DONT MAKE IT TOO OBVIOUS THEN LIE WITH THE ABOVE CONCEPTS. I could provide examples of this all day long; it is so very simple to achieve. Of course a dummy for the person who hasn't been conditioned means something different to the person who has. Ducchamp's toilet could mean this, that and the other but it would have a very distinct meaning if it was conditioned and conditioned and conditioned. If I used it over and over again as a door stop it would mean a doorstop. If I used it over and over again as a mile stone it would mean a mile stone. If I used it over and over again as a flower pot it would mean a flower pot. If I used it over and over again as a urinal it would mean a urinal.

{If I used it over and over again as a way to deliminate a path it would mean a pathfinder} I wonder what the sadist Janet Daley would have to say on this path example as she has recourse to use a path example in a last ditched attempt to save the neoconservative project.
Would she say I have overstepped the bounds and falsely laugh to mock the analysis of their subtle attacks. Does she think that a line drawn in the sand is comparable to the degrees of sexualisation we see in their sadistic attacks. Isn't this analogy about lopping off the aspects of degrees /subtleties which happens to be the principle method in their attempts at dehumanising / demoralising the left. This argument like everything else about these sadists is false. I have not been tricked by this sharp dividing line example and what's MORE I haven't been humiliated into dropping my argument. Nor will I be fooled in the other direction and try to connect up the whole world before I respond. This is discussed MORE below.

Deny objects could have several designed meanings.

The use of chaff/ILLUSIONS to confuse an objects meaning when scrutinized.
Replacement of an object under scrutiny with another that hasn't received any conditioning and used as an example.

Create an object that shows aspects of the conditioned object then claim it represents something completely different.

On tv we see the use of a certain word cued to correspond with certain image but they would deny that the word and image has been cued. TV has many ways of conditioning objects which deserves its own chapter.

A subtle wry smile and certain body language (that has been conditioned) to transform an objects meaning.

Using objects from your opponents side that correspond with objects that have been conditioned. Pamela Anderson draped over egg- Pravda 17-March-07 (rather crude attempt) Rothschild Faberage egg selling. Pravda is a disaster for the left. You only need to look at Timothy Bancroft's use of images match it it with a Budweiser add and then see the cover story from a Greenpeace spokeswomen to see that.

If a conditioned object is identified then they try to replicate that on their opponents side and claim the pathology on the opponents side. We see this with dummy sucking.

Claim friendship and peace in an attempt to brush aside, overlook, deny, ignore and mask sadism. What I have been saying in no less ineffectual or unfounded.. What actually happens is I face two enemies. I do not write this in order to receive ticks and grades from saboteurs. It is very frustrating to take capitalism to the brink and then have it saved by traitors. -- you pigs are going under.

The use of saboteurs/ agents to confuse the meaning of identified conditioned body language.

“Watching Putin with a Pensioner” --MoscowTimes.ru--19--Oct--07

The use of photographers to catch the right pose, right scene etc,:

The calling of facts myths- FACT:dummy sucking FACT: teddy bear limb sucking. FACT: retailers selling g-strings. Those who have designed, instigated, followed and carried out these attacks will be hunted and hounded to death- you are are doomed.

Claim Stalinism and arbitrariness every time a suspect should be questioned. Arbitrariness is designed in order to hide the conditioner. See example on carrying irritant to the open hand. There is also the attempt to create paranoia as a part of and consequence of chaff . My demonstration of poetical attacks put these in their place.

Claim your opponent is mad. Is this mad- FACT:dummy sucking FACT: teddy bear limb sucking. FACT: retailers selling g-strings etc., etc,. The madness is in the attempt to sexualise these objects- a monstrous act of conditioning which demonstrates the rights' untenable position and their shear desperation.

Claim not enough detail. The above three facts are MORE than enough. This is an attempt to try and get us searching endlessly to make us think what we have is not enough; to make us doubt whilst being continuously poisoned. My reaction to the right is this : you are sad sadistic pigs in denial that you have

BEEN PREVIOUS ATTEMPTS AT CONDITIONING THE ROUND. OF COURSE THE SADIST WOULD SAY THAT IS JUST A COCONUT; TO TAKE THINGS LITEARRALY (see Gary Gazprov quote and see ball example.) BUT THAT IS USED AS AN EXSCUSE TO DENY THE CONDITIONG ASPECT. I UNDERSTAND THE PHALLIC (similies) AND I UNDERSTND HOW IRONY IS USED TO TRANSFORM THE MEANING OF OBJECTS. MY ARTISTIC AND LIFE EXPERINCE TELLS ME TO REACT TO THAT, AND I WILL REACT TO THAT. I AM NO LONGER CONCERNED IF THAT IS CALLED UNSCIENTIFIC AS SCIENCE AT PRESENT CAN NOT COPE, DEAL WITH, UNDERSTAND, PROVE THE VERY SUBTLE ATTACK (THE WEAK SEXUALISATION AND WEAK SIMILIE). I WILL NOT WAIT FOR SCIENCE TO GET THAT SCENE FORMULATED INTO A MATHMATICAL EQUATION BEFORE I RESPOND.THEY WOULD LIKE NOTHING MORE THAN FOR US TO SPEND AN ETERNITY TRYING TO USE QUANTIIVE METHODS. **Maths is too far an abstraction, it requires the language of the artist to resolve this and it has been resolved by an artist.**

CONSIDER THE PIG I SAW IN COLOUMBIA /PLAZA BOTERO 30--JUNE--07, WHO, ON NOTICING ME, PLACES THE FULL OPEN HAND ON HIS FRONT PACK AND LAUGHS. THIS GETS A GIGGLE AND A GENTLE SLAP FROM HIS PARTNER.

I WONT LET HIM GET AWAY WITH A GENTLE SLAP, AND NOR SHOULD YOU. I HAVE REACHED THE STAGE WHERE I BELIEVE IT NECESSARY TO SEVERLY PUNISH THIS TYPE OF PERSON. THE HARM THAT THEY INTEND TO CAUSE ME AND THE IDEAS THAT I HOLD I FIND INCREASIGNLY DIFFICULT TO LET PASS. THEY SHOULD BE ALLOWED TO CARRY OUT THESE ATTACKS IN AN ATTEMPT TO GAIN POLTICIAL AND CULTRAL CAPITAL. WE SEE THE AMPLIFICAION OF THESE ATTACKS BY NO-BODIES IN THE HOPE THEY WILL GET NOTICED AND RESPECTED BY THEIR GODFATHERS.

DOCUMENTING THESE ATTACKS DOES NOT STOP THEM AND SO I WILL HAVE TO USE FORCE TO MAKE THESE ATTACKS STOP. I HAVE TO DEFEND MYSELF. I REFUSE TO HAVE MY MIND DAMAGED ANYMORE. IT IS OUTRAGEOUS THAT ANYBODY WOULD ALLOW THESE ATTACKS TO CONTINUE. PEOPLES SILENCE AND INACTION ON THIS MATTER IS AN ACT OF BETRAYL AND COMPLICITY. YOU ARE LETTING A GRAVE CRIME TAKE PLACE.

IT IS SELF EVIDENT AND MORE ADVANTAGES UNDER THESE CIRCUMSTANCES THAT I SHOULD WORK AND FIGHT ALONE . THE NEOCONS HAVE TO REALISE THAT THEIR HEADS WILL BE BLOWN OFF AT ANY MOMENT. THAT IS MORE WORRYING FOR THEM THAN WATCHING A BUNCH OF SUBMISSIVE GIMPS AND TRAITORS TOTALLY AT THEIR MERCY.

And so on:

Neoconservatism tries to make us pursue an **endless logic** in pursuit of a total truth that can never be reached and then tells us you are not quite there yet, and, its MORE complicated than that,or, it needs to be MORE wide ranging,or, needs to be broader,or, needs MORE detail, or, you need to be MORE clear. Clear in a logic that is never clear? Clear in logic where the "determination is not clear"- Lenin. My first example was MORE than enough and there should have been action then to stop this. I am no longer fooled into waiting and waiting and waiting. I AM CLEAR BEYOND ANY DOUBT.

Neocons / SADISTS where is your credibility now ? NEOCONS /SADISTS YOU AND YOUR SYSTEM HAVE FAILED . IT IS TIME YOU WENT TO JAIL FOR CRIMES AGAINST HUMANITY.

APPENDIX A Draft

The attack upon evidence.

It should be noted that the sadists believe that the more intense and diabolical the poison the more difficult it is for the poisoned to defend themselves.

This is because they will argue that the quality of evidence is skewed by the perversion that they have tried to cause.

It is vital to understand that they will create SPECTACULAR events for public consumption that aim to FORCE INTO the consciousness ideas which can be used to defend themselves from discoveries made about their sadistic attacks. It is intended to OVERPOWER AND CROWD OUT CRIICAL IDEAS . TO RETAIN AND RETARD the publics' thinking.

Poetry is a key mechanism in referencing this perversion. I have shown above how certain words can be conditioned and then used in attacks. I don't feel it necessary for any **MORE** explanation of that process here **:)**

The timing is also important. When evidence is presented they have to respond and it usually in the following manner:

Here is a sample of attacks upon the concept of evidence and the use of referring to pathologies in order to try and undermine the quality evidence.

At certain times that is dearly needed; the need to introduce the idea of perspective. But as I've shown this idea is used to hide behind attacks. I have shown this with teddy bear limb placing and you should look at the Silk Cut adds.
Remember metaphor / metonym and simile offer the opportunity to claim they represent their other double meaning. But we know the scissors and silk are representing Silk Cut as Sachi and Sachi were commissioned by them. Which proves that a meaning can be designed, intended and targeted but denied, which is exactly what the sadists do in their attempts to cause a social pathology.

I wonder where they learnt that technique from, the NAZIS?

ATTACKS

Talking of Nazis

There is an attempt to associate / create fascism within the left.

Here is a Debian dict definition

“monarchism, national socialism, nationalization, neo-fascism,”

The National Bolshevik Flag draws quite heavily on it the Nazi flag. Off course they would never be outright about that but then again what we are dealing with is degrees and subtleties. The principle method in the sadists attacks. And I am more prepared than most to respond to subtleties.

Charlie Wilson often gets a mention and his ability to channel billions into the Soviet Afghan War. --25--June--07

The central idea is to claim the Soviets lost through moral inferiority . It is also used to stir resentment and fuel militancy and hatred against the left. If the Mujahdeen will spill blood for their fathers honour what would they do against a pathology. However I have ripped a ear and a limb from capitalism so there will be no more talk of this and if there is it would only take a gentle word in their ear to halt it.

There is now acceptance on how Neocons attack the working class . Reacting to this the Neocons respond with illusions and broad philosophical ideas to deceive and hold back those who are about to kill them. As the above dissertation has resulted in public agreement this essay deals more with the defensive stance taken by the Neocns at the moment the public agrees. We shall see the Neocons cover stories are even more sophisticated than their psychological warfare campaigns. They survive through lies. Those lies shall be layed bare.

There are two main philosophical defensive fronts the Neocons use:

A prominent defense the Neocons use is to blame the reader for misinterpretation of meanings. To place the blame on the readers interpretation. This issue has been dealt with in the above dissertation . See “ call a spade a spade” Silk Cut advertising and the Western Union add with several confirmations including confirmation from Zionists. The argument that this is your opinion or your impression has been shown to be a last ditched attempt to divert the blame. Even the Zionist has to confirm and has confirmed because those doing the attacking have made a mistake and made their symbols too literal. If the Zionist is questioned on this they have no other choice but to confirm otherwise they risk appearing like people trying to mask the truth.

This is why the ideas of interpretation and subjectivism , the blaming of the reader and their interpretation has failed. The traditional methods of representing subjectivism by laying a layer of obfuscation over the senses (lenses etc) has dramatically fallen. However they continue in the same vain with ever more refined methods. The more refined method involves using the very pathology they have tried to create in the working class. The idea is this: you are mentally ill and that illness is making your evidence biased.

As the defensive front of blaming your reader has been exposed as a way of offsetting the blame I will concentrate on their second defense , that of philosophical attempts to ridicule grey areas / subtle abstracted symbols.

The second defense is a host of tricks which focus around the effort to ridicule the idea of grey areas and middle grounds - the areas neocons usually attack from when constructing their symbols . They ridicule grey areas in order to make the public disregard and not react

movment away from the train track as being a movement into catastrophe. This anology is used in order to push firmly into the minds of the public the idea of SHARP dividing lines. The concept of SHARP dividing lines does not accept the grey. The train track analogy is a very very black and white analogy - you are on or off. The constant use of the path analogy constrains peoples thinking to disregard the grey and not react from it. We have seen with the Western Union ad the Silk Cut ad etc that being offish/ attacking from grey areas offers the Neocons the opportunity to claim the reader is on the wrong path and will ridicule them there. The public are made to feel very uncomfortable with the concept of middle grounds/grey areas.

False Analogy trick two:

The use of the concept of concrete. The central idea of this analogy is to bring to the fore the idea that being slightly non hard would make concrete ineffective/ useless. This again makes the public feel uncomfortable with grey areas. Concrete is hard/represents the firm /the black the sharp. They demand more grit, more sand, more concrete. Less firm concrete represents the grey areas and is laughable in this analogy. Concrete is also a philosophical category in Marxism. The concrete is the many sided. To react without the many sides would be reacting from less firm foundations. As I mentioned in the above dissertation this is way to make the working class not react and slow their progress.

These two analogies are crucial in swaying the public away from grey areas ; away from accepting and reacting to the use of subtle attacks used in advertising. We will revisit these analogies as they get applied in the media. See media examples from November 08

Besides these two false analogies there is a third perhaps more important than the others. The grey areas are attacked by trying to blur any distinction they have. This concept is represented with:

False analogy trick 3 : The grey areas are represented as a sea. The seashore gets particular attention as an area to ridicule. The seashore being a zone of transition. An area where it is both water and beach. We also know Marx used the analogy of the sea to represent dialectics. It is like their symbols in that they contain degrees of something else. Degrees of sadism. Sadism that they want to fudge and blur.

The conditioning involves using the conditioned hands a lot with hamburgers , poetry with the use of words come and salty hamburgers and many of the techniques we have already discussed in the above dissertation.

Below is a sample of the political effects of this conditioning.

Novemebr sees more emphasis on birth defects. Facts, science, hard evidence used to downgrade common knowledge – see page 5 for obvious examples of conditioning. Mixed is used to diminish the idea of slightly obscured symbols. Balance for its binary logic yes or no. A few path analogies, to enforce the idea of

When you come up trumps they want an abortion. They do not like it when you breed. We see Sep / Oct /Nov trying to convince a pregnant women to abort. The concepts of abortion and Bioshock DNA IVF are used to cause this.

Scientology and myth because they wish do downgrade peoples acceptance that slightly obscured symbols are being used as a weapons. You do not need to be a rocket scientists to know pigs do not fly. You do not need to be a scientist to know teddys bears limbs, dummies, gstrigs etc etc are being sexulaised as seen on page 5

The path analogy that we see being used over and over again throughout 08/09 is being used to for its binary sharp dividing line – yes or no. They do not like you acting on the idea of the mixed / the grey or the slightly obscured symbol.

Baby p gets mentioned because of the destruction of the Wests civil service they use this case as an example of lack of care. Extinction because that is what they hope to achieve. Often gets mentioned during political events to scare the public into voting right wing.

Food theme with a greater emphasis on perspective and viewpoints. Overstep being used to force the idea of demarction –overstepping the mark. This is also why the idea of borders is useful. The concepts of diamond is used to represent the idea of SIDES. Zebra for the black and white analogy. Notice coming up and stirring up. I have shown how words get loaded with new meanings. They load new meanings then use them to condition. In this case food.

A continuation of the above but they are aiming to broaden the debate jigsaw , diamonds , fuller picture, detailed , broadview are used to do that. Verge is used to represent the grey . Of course the idea of perspective opinion etc continues. Fact They believe the slightly obscured symbol the symbol that is conditioned can avoid facts. Scientific facts are also used to downgrade common knowledge. A solid fact would be the literal symbol. A slightly obscured symbol wouldn't be solid enough.

Myth Myth is used to describe knowledge that isn't a scientific fact. Or the slightly obscured symbol.

Concrete

When the capitalist is hanging by a thread he will say you are unclear, vague and you need to be more concrete. He will force you to think in false analogies on the theme of solidness – the more connected the more concrete.

experienced" of the plebeian leaders during the revolt of 1378; but there can be no doubt that it is Machiavelli himself who is speaking from the heart:

> If we had now to decide whether we should take up arms, burn and pillage the houses of the citizens, and rob the churches, I should be the first among you to suggest caution, and perhaps to approve of your preference for humble poverty rather than risking all on the chance of a gain. But as you have already had recourse to arms, and have committed much havoc, it appears to me the point you have now to consider is, not how shall we desist from this destruction, but how we shall commit more in order to secure ourselves. . . . It is necessary to commit new offences by multiplying the plunderings and burnings and redoubling the disturbances . . . because, where small faults are chastised, great crimes are rewarded. . . . It grieves me to hear that some of you repent for consciences' sake of what you have already done and wish to go no further with us. If this be true you are not the sort of men I thought you were, for neither conscience nor shame ought to have any influence upon you. Remember that those men who conquer never incur any reproach. . . . If you watch the ways of men, you will see that those who obtain great wealth and power do so either by force or fraud, and having got them they conceal under some honest name the foulness of their deeds. Whilst those who through lack of wisdom, or from simplicity, do not employ these methods are always stifled in slavery or poverty. Faithful slaves always remain slaves, and good men are always poor men. Men will never escape from slavery unless they are unfaithful and bold, nor from poverty unless they are rapacious and fraudulent, because both God and Nature have placed the fortunes of men in such a position that they are reached rather by robbery than industry, and by evil rather than by honest skill.

This is strong medicine indeed, and it was precisely as a kind of strong medicine that Machiavelli was first apologetically presented to the world. When his *Prince* was posthumously published in 1532, the printer, Bernardo di Giunta, dedicated it to Monsignor Giovanni Gaddi, asking to be protected from those critics "who do not realize that whatever

If Jews represent just 2% of the U.S. population, would it be odd for a media organization (whose parent company has a Jewish president and Jewish-majority of C-level executives) to also have a Jewish President and Jewish Vice-President, a Jewish-majority of Executive Vice Presidents, and a Lead Political Anchor, Chief Political Correspondent, Chief Political Analyst, Chief Political Director, Chief National Correspondent, and Chief Washington Correspondent—all 6 of its "Chief" anchor positions—who are all Jewish, as well as a majority—at least 13—of the network's currently-running shows having Jewish hosts?

It's almost as if...

Would it be odd for *all 5 divisions* of a media organization to have *both* a Jewish Chairman *and* a Jewish President? What if its National Political Director, Chief Legal Correspondent, Chief Foreign Affairs Correspondent, and more than half of its executive producers and hosts were also Jewish? If the General Counsel, Sr. Executive VP, and Chairman & CEO of its parent company were Jewish as well?

It almost seems like...

If roughly 2% of Americans are Jews, is it odd that a newspaper's Chairman & Vice Chairman, Publisher & Deputy Publisher, Managing Editor & Deputy Managing Editor, President & CEO's spouse, Chief Operating Officer, and majority of its Directors and Exec. Committee are Jewish? What if its D.C., L.A., London, Paris, Rome, Berlin, Central/East Europe, South Asia, and Australia Bureau Chiefs, its Editor-in-Chief of its Editorial Page and Global, Magazine, and Business Editions, and its Chief National, International, Political, Domestic Affairs, Military, and White House Correspondents—all but one "Chief" Correspondent—are also Jewish?
